

PROJECT 10073 RECORD

1. DATE - TIME GROUP 8 Nov 66 9/0600Z	2. LOCATION Saginaw, Minnesota one witness
3. SOURCE Civilian	10. CONCLUSION Unidentified
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 5 minutes	11. BRIEF SUMMARY AND ANALYSIS Observer was driving along a road when she noticed a group of lights that were white, yellow, orange, and blue in color. The lights were flashing and changing colors. The lights appeared to be almost touching the ground. The lights would abruptly vanish when the observer would get closer.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE N/A	
8. PHOTOS <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	The description of the object could fall in the category of unusual atmospheric phenomena such as ball lighting. The object could well have been attributed to a quite similar phenomena however there is a lack of data to substantiate such an evaluation.
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

REPLY TO
ATTN OF: 29OIN

10 November 1966

SUBJECT: Follow-Up Report on UFO Sighting (29ADiv Msg, 29OIN 11007, 10 Nov 66)

TO: FTD (TDETR)

1. The observer, [REDACTED], was driving home near midnight, Tuesday, 8 November 1966. His parents, Mr. and Mrs. [REDACTED], own a small boarding house off a country road, about [REDACTED] of Highway 33, about twenty miles west of Duluth, Minnesota.

2. On the morning of 9 November, Mrs. [REDACTED] called the Air Base, and the call was routed to the 29th Air Division (NORAD) Intelligence Office. Mrs. [REDACTED] gave the names and telephone numbers of several people in the area who had sighted the light on previous occasions. The Intelligence Officer telephoned Mrs. [REDACTED], who said she and her husband had seen it at the same place (see drawing) that [REDACTED] saw it. She could not remember the time of the sighting, only that it was "a few weeks ago". The [REDACTED] had been driving west at the time, approaching the [REDACTED] home. A Mrs. [REDACTED] who lives north of the [REDACTED] on Highway 33, said she saw it from her house, in the distance, looking southwest toward the [REDACTED] home. She had seen it "a few nights ago". These were the only people the Intelligence Officer actually spoke to, but they all said that many other people in the area had seen it on numerous occasions, always late at night.

3. On the afternoon of Wednesday, 9 November, personnel from the Intelligence Office visited the area and interviewed Mr. and Mrs. [REDACTED]. [REDACTED] was not present, and has not been questioned by Intelligence personnel. The area was forest of birch and fir, with low ridges roughly at right angles to the unpaved road. There were a few inches of snow on the ground and the road, and there had been snow the night of the sighting. Prior to that time, the only snowfall in the Duluth area that didn't melt before covering the ground was an eight inch snowfall of 15 October, and this was all gone in less than one week. Hills and trees completely block the house from the UFO sighting point. Nor was the house visible from the hill the car was on when the UFO was seen. No other cars were in the area at the time of the sighting, and the only power line was the one west of the house (see drawing). No other houses are on the road east of the [REDACTED] home, and no light sources of any kind. Highway 33 is not visible from the house, the UFO sighting point, or the low hill where the observer's car was. The trees average 25-35 feet in height and are fairly dense.

4. The [REDACTED] class and both [REDACTED] [REDACTED]. They are in their late fifties or early sixties. They are probably [REDACTED] but seem to be of average intelligence.

FROM POWER LINE POSSIBLE, BUT IMPROBABLE DUE TO DISTANCE, LOW HILLS
BETWEEN, AND HEAVY SNOW FALLING. REFLECTION OR HEADLIGHTS POSSIBLE,
BUT UNLIKELY TO HAVE DECEIVED SO MANY PEOPLE. ALSO, HEADLIGHT OR
PORCH LIGHT REFRACTION WOULD NOT EXPLAIN THE FACT THAT NO SIGHTINGS
OCCURRED UNTIL RECENTLY. ALWAYS SEEN LATE AT NIGHT, NEVER LEAVES
TRACE ON ROAD OR SNOW, AND VANISHES AS OBSERVER'S AUTOMOBILE

PAGE 5 RUCIHMA0019 UNCLAS

APPROACHES. POSSIBLY SOME AS YET UNKNOWN ATMOSPHERIC PHENOMENA,
SIMILAR TO BALL LIGHTNING. WILL SEND FOLLOW-UP REPORT AND MAPS.

12. PHYSICAL EVIDENCE: NONE.

BT

NNNN

UNCLASSIFIED

None of the people interviewed had any explanation of the light. They were obviously not saucer cultists.

5. Mrs. [REDACTED] said her son heard nothing when he saw the object, but later that night he was kept awake by a whirring sound which no one else heard.

6. The light has only been seen in recent weeks, and some of the sightings occurred when there was no snow. The light leaves no trace behind. It did not melt the snow.
